## About World Horse Welfare

For almost a century, World Horse Welfare has given abused and neglected horses a second chance in life, at home and overseas.

Formerly the ILPH, today we work tirelessly alongside our supporters, turning their passion for horses into the power to help countless more live happier, healthier, more fulfilling lives. We do this by stamping out suffering, campaigning for improved treatment, and teaching owners how to provide their horses with better care. Because it's only together that we'll be able to give horses the welfare - and the world - they deserve.
